WILL NOW MANDAMUS THE STATE TREASURER

There is another effort being made to relieve the financial stress of the state. The state officers have held a score of meetings in order to solve the problem, but to date it is in a knot. There is one way out, it is hoped, and that is to transfer a fund to the general fund and get the money in action.

Tuesday Governor Oddie, Attorney General Baker and Secretary of State Brodigan held a meeting and discussed such a proposition. It was finally proposed to transfer what is left in the new prison fund into the general fund. The amount left amounts to \$73,945.80.

The result was that a mandamus

case has been brought against State Treasurer McMillan by the two members of the board to compel him to transfer the amount mentioned from the new prison fund to the general fund. The papers were filed with the supreme court yesterday.

The supreme court will have to take the matter under advisement and look up the authorities. Should it be found possible to transfer this unused fund into the general fund it would relieve the situation for two months at least and put the discounting of warrants off to that extent.

The only item that stands in the way is the fact, that the state has entered a contract with the Nevada Engineering works for steel cells to be delivered at the state prison. The question of how to stand off the engineering works in case they land with the steel is what will have to be decided.—Carson Appeal.

GOOD REPORT FROM DOUGLASS MINES

Everything is progressing nicely at the Nevada-Douglass mine and on the Copper Belt railroad in this district, and it will see ore trains running over the line from the mine to the smelter. At the mine the trestle has been completed for the Douglass tram which will carry ore direct from the mine to the cars.

The large pumps have been in-

stalled and the work of unwatering the property to the seventh level will begin immediately. The work at the mine at the present time, consisting of opening up the stopes on different levels so as to permit ore being readily extracted when the time arrives to ship it.

Development work has disclosed new ore bodies on the 100 foot level, the 200 foot level and the 600-foot level, and the mine is getting bigger every day.

The railroad grade has practically been completed and the work of laying the ties and rails will be completed next week.—Yerington Times.

UP AND DOWN.

The price of barley has advanced several dollars a ton while wheat has taken a decided slump. The farmers all raised wheat this year and no barley. Next year they will all raise barley and no wheat, and the prices will again be reversed.
